

Press Release 2023/01
31-07-2023

COOPERATION BETWEEN FAUN AND JUNGO

The FAUN Group and the Swiss special vehicle manufacturer ICEE JUNGO AG enter into a strategic production partnership with the all-electric sweeper JUNGO 3.0.

FAUN Viatic GmbH, a company of the internationally active FAUN Group and manufacturer of truck-mounted sweepers based in Grimma, Saxony, and ICEE JUNGO AG, a development and sales company for municipal vehicles based in Hünenberg, Switzerland, signed a cooperation agreement on July 25, 2023.

FAUN Viatic will manufacture the full-electric JUNGO 3.0 compact sweeper at the sweeper plant in Grimma from fall 2023. With this step, the Cleaning Division of the FAUN Group is entering the production of compact sweepers. Up to now, the portfolio has included truck-mounted sweepers with a gross vehicle weight of up to 26 tons.

In addition to expanding its product range with this environmentally friendly compact sweeper in the 3.5 t class, FAUN Viatic also sees synergies with the group's other Cleaning Division brands VALAIR, TROMBIA and FAUN. Development and sales will be managed by ICEE JUNGO in Switzerland. The JUNGO 3.0 will be marketed in the DACH region and Europe.

'The cooperation with JUNGO is not only an excellent addition to our product range with a compact sweeper, we are also underlining our commitment to driving forward alternative drive systems in the municipal sector,' confirms Tim Collet, Managing Director of FAUN Viatic GmbH.

BACKGROUND

For over 30 years, the name JUNGO has stood for competence and innovation in the development and manufacture of municipal vehicles, road sweepers and alluvial vehicles. In May 2022, Nicolas Jungo, founder of ICEE JUNGO AG, presented the JUNGO 3.0 to the public for the first time at the international trade fair IFAT and attracted a lot of attention. The vehicle concept impresses with its innovative drive and battery concept, its outstanding CO2 balance and maximum ease of use.

FAUN Viatic GmbH is a subsidiary of the FAUN Group, which is part of KIRCHHOFF Ecotec, the environmental division of the globally active KIRCHHOFF Group. In 2022, the KIRCHHOFF group of companies generated sales of 2.5 billion euros with 13,000 employees in the four business units Automotive, Tools, Vehicle Conversion and Municipal Technology. The Group owns 56 plants in 22 countries on five continents. In spring 2023, the new production plant for sweepers was inaugurated in Grimma near Leipzig, where the JUNGO 3.0 will also be built in the future. FAUN invested 20 million euros in the new building, where 140 skilled workers are employed. 500 sweepers and kits are to leave the Saxon plant per year and go into operation worldwide.
