

## PRESS RELEASE

### FAUN at BAUMA 2025 – Built for the Toughest Jobs

**Grimma, April 7, 2025** – When others stop, we keep going. At BAUMA 2025, FAUN will demonstrate what robust, high-performance sweeping technology really means. From compact city sweepers to our 14-m<sup>3</sup> powerhouse, FAUN brings the full range. Visit us from April 7–13, 2025 at open-air site FM 808/2 in Munich.

#### Experience our machines live:

- VIAJET 7 – the all-rounder for municipalities and construction sites
- VIAJET 14 – our most powerful model for large areas, airports, and special applications
- Trombia Free – fully electric, autonomous, efficient: the future of sweeping

Engineering that delivers. Made in Europe. FAUN sweepers are built to handle extreme conditions – from winter service in cities to high-pressure demarking of airport runways. With cutting-edge technology and decades of experience, all machines are manufactured at our production sites in Grimma (Germany), La Cotê (France), and Kuopio (Finland).

**Applications include:** municipalities, airports, highway maintenance, public works yards, industry, logistics, and road construction. Whether you're tackling construction debris, milling material, leaves, or runway rubber – our machines get the job done.

**True flexibility:** Many models can be converted for special tasks such as rubber removal or demarking, yet also operate as standard road sweepers. This saves time, budget, and fleet complexity.

Service and support, close to you: With our Europe-wide after-sales network, tailored maintenance plans, and on-site demonstrations, we support our customers from day one. Our specialists in service, spare parts, and training are ready to help – fast, reliable, and hands-on.

## **FAUN GROUP**

The FAUN Group employs more than 2,200 people worldwide. As a bodybuilder, it is one of Europe's leading manufacturers of refuse collection vehicles and sweepers, operating 18 locations across eleven countries. The group's headquarters are located in Osterholz-Scharmbeck, Lower Saxony, Germany. FAUN Viatec GmbH, based in Grimma, Saxony, is a subsidiary of the FAUN Group. Sweepers have been manufactured there since 1992. In 2023, the company moved into a new production facility, where 190 employees are currently working. FAUN is part of KIRCHHOFF Ecotec, the environmental division of the globally active KIRCHHOFF Group. In 2024, the KIRCHHOFF Group employed 14,200 people and generated sales of €3.3 billion across its four business sectors: Automotive, Tools, Vehicle Conversion, and Environmental Technology. The group operates 56 plants in 24 countries across five continents.
