VARIOPRESS URBAN

THE OPTIMAL SOLUTION FOR MANEUVERABILITY AND MAXIMUM CAPACITY

The VARIOPRESS URBAN is the agile all-rounder for collecting all recyclable materials and waste in urban environments.

Thanks to its space-saving design combined with high payload capacity, it bridges the gap between the small VARIOPRESS KOMPAKT and the large VARIOPRESS. Its dimensions are based on those of medium chassis series. The result is the ideal solution for tight spaces without compromising on volume or payload.

With the appropriate BARLIFT, organic waste, light fraction, residual waste, paper, and light bulky waste can be collected easily and as usual.

GOOD REASONS TO BUY THE URBAN VARIOPRESS:

- Container sizes: MBG 60 l to 1,300 l
- Body volume: 9 to 12 m³
- Body width: 2.2 m
- Suitable for chassis from 12 t GVW
- Available in 2 different heights
- Wheelbase from 3,260 mm
- In combination with BARLIFT
- Small turning radius

- ④ Maximum functionality and robustness in a compact design
- ④ Narrower, lower, and lighter than the large VARIOPRESS
- ④ Highest reliability thanks to proven VARIOPRESS technology

BARLIFT without compromise:
All equipment features are also available for the VARIOPRESS URBAN.

1 Body height: 1,899 or 2,099 mm

2 Body length: 4,801 to 6,301 mm

FAUN.

This name has been moving the trucks and vehicles world since 1845 and makes hearts beat faster worldwide.

We are 2,000 passionate people with a penchant for technology and craftsmanship.

We think outside the box and dare to break new ground.

We produce sweepers and refuse collection vehicles with total dedication. And with our ENGINIUS brand, we are the first supplier to pioneer hydrogen trucks ready for series production.
