

# FAUN x IFAT 2026: PRODUCT & INNOVATION

## OVERVIEW

**Osterholz-Scharmbeck / Munich, May 4<sup>th</sup>, 2026** - Under the central theme "Home of Originals," FAUN presents integrated solutions for municipal waste collection and street cleaning at IFAT 2026, with a clear focus on safety, efficiency, sustainability and digitalization.

### Future Truck 2.0 & Assistance Systems

Holistic vehicle concept with connected intelligence.

- **AI Cube** – AI platform for real-time data & automated processes
- **Shared Screen** – Central control via 12.3" display
- **Smart Hopper Control (SHC)** – Automated loading system
- **Smart Compaction System (SCS)** – Material-dependent compaction
- **Panoramic view & camera systems** – Enhanced all-round visibility
- **Safety User Display (SUD)** – Display for operating personnel

### Safety Solutions

Multi-stage systems for prevention and automated response.

- **Intelligent fire protection system** – Early detection, automatic response
- **Safety Zone Illumination (SZI)** – Visible hazard zones and extended assistance for critical driving situations

### Sustainability & Circular Economy

- **reNew VARIOPRESS** – Body made from recycled materials / contribution to CO<sub>2</sub> reduction and future tender requirements

## Refuse Collection Vehicles

Scalable portfolio for different applications.

- **VARIOPRESS KOMPAKT** – Compact & maneuverable
- **VARIOPRESS URBAN** – Efficient for urban environments
- **ROTOPRESS + BIN WASH** – Collection & cleaning combined
- **CITY series** – Small and urban

## Sweepers

Broad portfolio for all applications.

- **VIAJET 8 POWER** – New development for construction sites
- **VIAJET E** – Fully electric
- **VIAJET 9** – Large volume
- **VIAJET 7 AQUATHERM** – Specialized applications
- **VIAJET 6** – All-rounder
- **CITYJET 5** – Compact for inner cities

## Comfort & Ergonomics

- Hygiene board (TRBA-compliant)
- Glove dryer
- Heated & illuminated handles

## Conclusion

FAUN is transforming vehicles into intelligent, connected systems for greater safety, higher efficiency and sustainable waste management solutions.
